

# MALLE VINCENT MANUAL

## KIT LIST:

Vincent Duffel  
Motorcycle 'X' Straps  
Padded Shoulder Strap  
Malle Wax (Optional)

## THE VINCENT DUFFEL:

The Vincent Duffel expands and contracts in length, so you'll always have room for whatever you're carrying with you. Simply roll the ends to make larger or smaller. We've reinvented the iconic duffel, to become a shapeshifting expandable water resistant bag - perfect for travel on all modes of transport and especially on motorcycles, where luggage space is always limited.

## INSTALLATION:

To install the Vincent Duffel, lift up the motorcycle seat and place the straps in an 'X' shape, replace the seat and place the duffel on top. You can thread the straps through sides of the bag for extra strength, pull the straps tight around the bag and check that it cannot slip or rotate. The contents of the bag can then be easily accessed via the main zip.
